online backup + recovery

Computers are the default storage medium for most businesses and virtually all home users. Because portable media is quickly becoming an outdated and expensive method for safeguarding important data it is essential to secure critical business assets and personal information with an easy-to-use, automated, online backup service. The eSureIT backup, archiving and recovery service is a powerful, yet simple to use solution. eSureIT comes equipped with encryption backup tools previously available only to Fortune 500 companies, but with an interface designed to be use by anyone in any size organization. This proven technology is user-friendly, reliable, ultra-secure and cost-effective.

### Unbeatable Security

Ensuring that no one but you can ever access your data is a top priority at Intronis.

### Retention and Archiving

Intronis Online Backup functions as a compliance-ready digital archiving solution.

### Restoration 3X Faster

Files are available the moment you need them.

### Continuous Data Protection (CDP)

For documents that change rapidly and need continuous data protection, Intronis Online Backup allows users to set CDP to automatically send changes every 15 minutes.

### Intelliblox: Block-Level Backup

Once a file has been saved once, Intelliblox backs up only changes, down to the block level.

### Flexible Scheduling

Intronis Online Backup provides complete scheduling flexibility. Each backup set can be set to run at any user-defined time, on any user-defined frequency. There are default settings, of course, but every aspect of the schedule is easily configurable.

### Microsoft Exchange Support

We have developed Intronis Exchange Store specifically to manage backup, storage, and restoration of Exchange files.

Easily backup, review and manage your online backup account

Quick access to frequently used tasks

The screenshot shows the eSureIT web interface. At the top, there are navigation tabs for 'Home' and 'Backup Sets'. Below this is a row of icons for 'My Account', 'Backup Sets', 'Restore', 'Delete', 'Activity', 'Diagnostics', and 'Preferences'. A progress bar indicates 'You are currently using 2.84 GB of 5.00 GB'. The main content area is divided into 'Status and Summary' and 'Scheduled Actions'. The 'Scheduled Actions' section lists several 'Next File backup (My Important Files)' tasks scheduled for various times from 4/11/2009 to 4/17/2009. A sidebar on the left contains a 'I want to...' menu with options like 'View Account Summary', 'Create A New Backup Set', 'Restore Files', 'View Current Activity', 'Manage Plugins', and 'Edit My Preferences'. At the bottom, the eSureIT logo is displayed.

Always know how much data you've backed up

## About Intronis

Intronis, founded in 2003, specializes in data backup, archiving and recovery for service providers and businesses. Intronis' Online Backup offers secure, automatic backup, on-demand restoration and archiving for Exchange and SQL databases, file servers, user files and email. Data is protected in transit and in storage by 256-bit AES encryption and is stored encrypted in mirrored Data Centers located thousands of miles apart. The solution allows versioning, and minimizes bandwidth demands through Intronis' proprietary Intelliblox block-level technology.
